Mr Wells upon American Finance.

Mr. Wells, special Commissioner of the Treasury Department of the United States, has written a remarkable letter upon the American Finances of the present year, which has been published in most American journals, and is well worth perusal, by all who take the slightest interest in the affairs of Uncle Sam. The letter enters minutely into the whole expenditure of the different departments, and shows a diminution in the expenses of government that must be highly satisfactory to all Americans, who are not desirous of making political capital for the coming Presidential election, out of grievances which at such times are invariably sought out, and sometimes invented for party purposes. Mr Wells' letter shows by plain figures that the expenses of the War Department have been gradually brought back to nearly the same amount as they reached before the war. The interest on the national debt of course forms one of the most considerable items in the annual expenditure; but it is satisfactory, so far as the growth and progress of international commerce is concerned, to find that simultaneously with a gradual diminution in taxes, the aggregate of debts exhibits a reduction which lessens the annual interest payable by \$15,000,000 per annum. The estimate for the Civil List for the present year is only about \$36,000,000. When we consider that this is to meet the whole civil payroll of a large nation like America, we may well exclaim at the comparative enormity of the Civil List of our diminutive Colony. There are however many differences in the system of official payments between the two countries which Englishmen do not, so far as they are concerned, desire to see assimilated, but in new countries it is with satisfaction that the tax-payers see their money expended in what appears to them to be for the substantial benefit of the country, than in payment of salaries to officials whose positions seem to be of questionable utility.

Another Letter from "Self-Reliance."

EDITOR COLONIST.—It is almost impossible within the limits of a short article on any subject to write exhaustively, by which I mean, fully enough to meet any objections or contrary views that might strike the mind of one who is opposed in sentiment to the writer. It is on this plea that I seek your indulgence for a few remarks in reply to your leading article of Tuesday, commenting on the letter signed 'Self-Reliance.'

As I hold that if argument is sound it does not matter from whom it emanates, I shall not enter upon the personal part of your article; I may be an old or a young fog, a government man or the reverse, but that won't affect the soundness of my arguments, if they are sound. I trust therefore, you will see fit to answer the arguments which I have endeavored to raise against a precipitate participation in Confederation, or to bring forward arguments of your own in its favor.

You are pleased to question the accuracy of the figures I submit, viz. \$90,000, as the saving effected in the Civil List since 1866. If you will follow the simple process I have done, and take the published Colonial Estimates of British Columbia and Vancouver Island for 1866, and for the United Colony in 1868, under the head of Civil List, you will arrive at the following result:

British Columbia Estimates 1866,	
Civil List.....	\$175,533
Vancouver Island, including Governor and Colonial Secretary,	
1866, Civil List.....	76,911
	\$252,444
United Colony, 1868, Estimates,	
Civil List.....	157,000
Reduction.....	\$95,444

Shewing an actual reduction of \$95,000; a statement which is not as you assert, 'entirely erroneous.'

You remark that at any rate 5 years ago, considerable public works were undertaken in the Colony; whereas, there are none now. I am glad you have done so, for it enables me to remind you of the source whence the funds came, viz. \$1,200,000, one million two hundred thousand dollars, the proceeds of the public loans; surely it is not surprising that the government should have been able to undertake costly public works with such a credit, and not much more surprising that just now when they have not only no loans to trust to, but have to expend one-fourth of the whole revenue of the Colony to meet the repayment of the afore-said loans, that they should be able to expend only a moderate sum in public works.

Further on you make a remarkably broad statement, broad even for the elastic conscience of an editor, viz., 'every dollar of our revenue, outside of the \$130,000 which is annually sent to England, goes out as fast as it is collected, to pay official salaries and dis-

charge temporary loans which never ought to have been contracted.'

In reply to this exceedingly wild statement, I would again point to facts and figures. Take the Estimates for 1868, and what do we find?

Estimated revenue.....	\$576,000
Estimated expenditure....	\$572,000
Then for details—Civil Service \$157,010,	
leaving a balance of some \$415,000!!! to be expended in the general service of the Colony, to wit:	
Bonds, Sinking Funds, Interest &c	\$260,000
Administration of Justice.....	5,200
Charitable Allowances.....	5,000
Education.....	6,000
Police.....	13,000
Conveyance of Mails.....	9,400
Roads, Streets, and Bridges....	50,000
Light House.....	10,000
Other expenditure.....	57,000

Thus making up the total of the sum of \$415,000 in a manner somewhat at variance with your assertion. It will moreover be found that the sum of \$157,000 for Civil List will be over the mark, the Magistrate's establishment at Columbia, costing I should say some \$6000 per annum, having been abolished, while considerable advances will have been made in the items of hospitals, mails, education, &c. &c. I venture to hope that this statement, open as it is, to be verified by anyone who will take up the Estimates for the year, will conclusively answer the broad statement I have quoted from your article; and I would venture further to remark, that such mis-statements cannot possibly do any good, and may do immense harm to the Colony.

With reference to your remarks as to the spirit in which the Governor has carried out the instructions of Her Majesty's Government, subsequent to Union, I hardly think, though differing with you, that the subject forms one of the advantages or disadvantages of Confederation, so I need not make any allusion thereto.

I would in conclusion refer to one fact which I omitted in my previous letter as forming an important objection to any premature action as to Confederation, a fact which all should narrowly watch, i. e. the action of Nova Scotia with regard to its connection with the Dominion, that section being by the latest accounts almost in a state of rebellion on the very subject of Confederation. Such a state of things re-enacted here, would be well avoided, while it is in our power to do so.

Yours,  
SELF-RELIANCE.

MANY DISEASES CURED.—The French do some things better than we do.—There is no reason why a patent medicine may not be just as good for special cases as any other prescription, and the idea that only a doctor can tell the exact dose suited to each case, age and constitution, is absurd; but in this country there is no scientific analysis and professional determination of the value of each patent medicine. Every seller of such articles advertises that each will cure many diseases. He hopes thus to procure his profits. In France every patent medicine has to be subjected to a thorough investigation by scientific and professional men in the employ of the Government, and worthless nostrums are not allowed to be sold. This fact is calculated to give confidence in French medical preparations, and the results of numerous cases in which those known as Grimaud & Co's preparations, sold in this city by Messrs Langley & Co, fully justify this confidence. Grimaud's Guarana has in numerous instances almost instantly cured nervous headaches, neuralgia, diarrhea and dysentery. Its effects are really marvellous. Their other preparations are Dr Leras's Liquid Phosphate of Iron, for general debility and other diseases of the stomach and blood; Grimaud's Syrup of Iodized Horse Radish, for scrofula, glandular affections and other ailments; Grimaud's Syrup of Hypophosphate of Lime, for consumption and diseases of the lungs; Dr Borin de Buisson's Digestive Lozenges, for difficult and painful digestion; and other remedies for other diseases.

VIGOROUS VITALITY.—The best defence against disease is a vigorous vitality. Disease is simply a struggle between the life-power and the invisible enemies that assail it; and the result depends upon the relative strength of the antagonistic principles. In proportion to the vigor and energy of the physique and the constitution, is their capacity to resist and fight off the morbid influences which produce sickness. It is a well known fact that active poisons affect in different degrees the weak and the strong. The dose of opium or of arsenic that will suffice to kill a child will scarcely sicken a stalwart man. It is the same with the aerial poisons which produce epidemic and endemic fevers, dysenteries, fluxes and the like. Their effect upon the system depends upon its power of resistance. Augment, therefore, this resisting power, if you would escape these evils. The tonic agent necessary to effect this object has been provided in

HOLLOWAY'S STOMACH BITTERS, a vegetable invigorant of surpassing potency. Fortify the body, increase the vital strength of every organ with this great herbal invigorant. Remember that it strengthens without unduly exciting the animal system. \*

HOLLOWAY'S PILLS.—The Great Need.—The blood is the life, and on its purity depends our health, if not our existence. These Pills thoroughly cleanse this vital fluid from all contaminations, and by that power strengthen and invigorate the whole system, healthily stimulate sluggish organs, repress over-excited action, and establish order of circulation and secretion throughout every part of the body. The balsamic nature of Holloway's Pills commands them to the favor of debilitated and nervous constitutions which they soon resuscitate. They dislodge all obstructions, both in the bowels and elsewhere, and are, on that account, much sought after for promoting regularity of action in young females and delicate persons who are naturally weak, or who from some cause have become so.

Those who suffer from nervous irritations, itching uneasiness, and the discomfort that follows from an enfeebled and disordered state of the system, should take AYER'S SANSAPARILLA, and cleanse the blood. Purge out the lurking distemper that undermines the health, and the constitutional vigor will return. \*

AYER'S CHERRY PECTORAL—the world's great remedy for Colds, Coughs, Consumption, and all affections of the Lungs and Throat.

FRED PAYNE has removed his Cheap Shaving Shop to the opposite side of Johnson street, just above the Miner's Saloon. \*

**THE BRITISH COLONIST.**  
Monday Morning, Sept. 21, 1868.

**Auction Sales To-day.**  
J. P. DAVIES & Co., Wharf street, will sell at 12 o'clock, at Cattle Yard, Fort street, Cows, Chickens, Horses, Waggon, Harness, &c.

**OUR BONDED WAREHOUSES.**—We accepted the invitation of Mr. Wilde on Friday, to visit these buildings *seriatim*, and were well repaid in doing so. The bonded warehouse system in this city had been a myth to us, and many of the public, were often puzzled to know how the Government, without any public buildings for the purpose, kept the run of imported goods. We find, however, the plan adopted somewhat simple and efficient, although it entails upon the revenue officers much extra trouble and necessitates more labor and vigilance than the public imagine. In the absence of a building owned by the Government, or a series of buildings devoted to bonding, through which, by the way, it loses at least \$9000 a year—in which bonded goods could all be stored together private stores are used, the owner and revenue officer both keeping keys so that neither can get into the stores without the knowledge of the other. Of these stores there are seven—The Hudson Bay Co's, Broderick's, Millard & Beedy's, Grelley & Fitter's, Janion, Rhodes & Co's, Dickson, Campbell & Co's and one at Esquimalt. Of these some are spacious with good ventilation and well arranged, equal if not better than the average of stores in San Francisco. At the present time there are upwards of 3000 tons of goods in bond, the larger proportion of which strongly illustrate the requirements and tastes of the community. This amount of goods in bond teaches us another fact worth noticing; viz., if to these 3000 tons of goods in bond, which are not over the immediate requirements of the people, we add those in the hands of the city traders and those distributed recently throughout the Colony, it will be found that to-day in what is alleged the culmination of our distress, there is little short of a ton of goods to every person of our white population. We doubt whether any other community in the British Empire can make such an exhibit. When we further recollect in this connection that there are still several vessels due from England, we may safely conclude, than in commerce, as in our mining, coal and lumber interests, the Colony was never in a better condition materially.

**INQUEST.**—An inquest was held on Saturday by the Coroner, upon the body of Mr. Donald McAnay, at Esquimalt. It appears from the evidence that shortly before the deceased went out fishing in a small risky boat, and that on drawing in a stone which he used as an anchor, he fell overboard, and was unable to extricate his hand from the rope in which it had got twisted, by some means. When discovered in the morning by the milkboy going across to the naval hospital, the hand was seen a little way beneath the surface. Under the circumstances the jury found a verdict of accidental drowning. Mr. McAnay was an employee of the Hudson Bay Co for over thirty years, and at the time of his death had charge of the company's powder magazine at Esquimalt. The funeral took place from St. Andrew's church yesterday. Deceased was over sixty years old.

**ECCLESIASTICAL.**—At an ordination held at the Cathedral yesterday morning by the Right Rev the Lord Bishop of Columbia, assisted by the Venerable the Archdeacons Woods and Reece and by the Rev W E Hayman, the Rev J C B Cave of Sapperton, New Westminster, was admitted to the order of the priesthood, and the Rev Holmes of Yale, and the Rev B Owen of the Indian Mission, Victoria, to the order of deacons. The ceremony of the induction of the Archdeacons to the Archdeaconries and dignities of Columbia and Vancouver respectively, was in the absence of the very Rev the Dean and in obedience to the Bishop's mandate, performed by the Rev W E Hayman, assistant minister of Christ Church, by placing the Archdeacons severally, in possession of a chair and seat in token of their full investment with the powers and privileges of their responsible office.

**ADULTEROUS ROBBERY.**—A few days since, the High Sheriff dismounted at his office and tied his horse to an adjacent post. While the Stipendiary Magistrate and two other gentlemen were standing talking close to the animal, a daring but clever "thief" crept up, and in a twinkling stripped the horse of both saddle and bridle. In a few minutes the Sheriff returned, and was amazed to see his saddle and bridle gone. The Magistrate indignantly at the very idea of a robbery being committed almost in his presence, started the police force after the "robber," (wag), who upon the hunt becoming warm, dropped his plunder in the street, and escaped to a well known haunt close by.

**ANTI-CONFEDERATION.** documents in effect, repudiating the action of the Yale Convention and the city Delegates thereto have been circulated during the past week for signature. It is proposed to hand them to His Excellency the Governor; they are signed by a number of our citizens—purporting to represent the feelings of the various sections of the community, both of our British and foreign element.

**BIRDS OF A FEATHER.**—Since the removal of the Indians beyond the precincts of the city, the police court business has been very light. There are no more Hydahs to make raids upon the white population, and that pernicious class of Indian whiskey sellers appears to have been exterminated. These miserable are now supposed to be rusticated also, tracking their prey as the jacked tracks the dead carcasses.

**A HOUSE** was lately burned at the celebrated bathing place of Vichy les Thermes, France, and it was curious to remark the strange mixture of assistants pressed into the fire brigade service. The pump was worked by a duke, ten generals, several clergymen, &c., causing much amusement;

**THE WEATHER.**—Owing to the long continuance of thick, foggy weather, business seems almost suspended and our communication with the outside entirely cut off. The Enterprise was unable to leave for New Westminster on Saturday and will not go up before to-morrow. The Sir James Douglas did not return from Nanaimo as usual, in fact almost everything in the shipping line is at a stand still.

**SUBSCRIBERS** will receive with this day's issue a catalogue of the goods to be sold at auction to-morrow, Tuesday, Sept 22nd, at the residence of John Russell, Esq., Esquimalt. N.B.—The goods will be on view this day from one to four o'clock.

**THAT GROUP.**—The raffle for Piper's group of figures will take place at the Garrick's Head, Bastion street, at 8 o'clock this evening.

SPECIAL TO THE DAILY BRITISH COLONIST

**LAST NIGHT'S DESPATCHES.**

**Whelan Convicted of the Assassination of D'Arcy McGee.**

**SENTENCE OF DEATH PASSED UPON HIM.**

**Canada.**  
OTTAWA, Sept. 15.—There was a large crowd outside the court room this morning, very few were admitted. The prisoner on being brought in looked pale and nervous. The jury returned a verdict of guilty. The prisoner who heard the announcement with great composure then made a long address to the Court in which he emphatically and solemnly asserted his entire innocence of the crime. He denied having any connection with the Fenians, and he declared he had been condemned because he was a Roman Catholic and that the evidence had been deliberately concocted to convict him. He was going on to speak of the cruel treatment of Irishmen by England when he was interrupted by the Chief Justice, who pointed out that whatever might be the case elsewhere, in this country Irishmen and all other classes were treated alike before the law—he had no reasonable grounds for any complaint. After solemnly cautioning the prisoner against entertaining any hopes of pardon, and imploring him to prepare for the future, His Lordship sentenced him to be executed on Thursday the 10th day of December.

**South America.**  
LONDON, Sept 12.—The fortifications of Hamaita had been razed to the ground, at last accounts; the whole allied army had commenced a march to lay siege to the fortified position of Lopez.

**Europe.**  
LONDON, Sept 12.—It is generally considered that the events of the last fortnight have made little change in the political condition of the continent, either to lessen or increase the chances of war; while on the one hand the press of Germany assumed a quieter tone as proof that they were confident of peace; on the other hand it is known that France has refused a formal demand made by Nigra, the Italian ambassador, for the recall of the French troops from Rome and at the same time the Prince Regent has brought to Paris a proposition from Spain to cement an alliance with France, by sending 30,000 soldiers to Rome. The proposition and the approaching election looks warlike. The London Times, says Johnson, the American Minister, has a carte blanche from his Government to settle the Alabama claims. The case presents but little trouble. The only difficulty is the reluctance of the American Government to settle the difficulty growing out of former resentments. No American statesman believed in the connivance of Great Britain. There might be a question as to the inadequate laws making England answerable, but this could be easily settled. The real grievance of the United States was in the differences in the Civil war and the willingness of England to see the Union destroyed. They think we should have shown active sympathy with the North. He now cuts the past adrift, and the thing is as good as settled. The only thing to be ascertained is the responsibility of England to fix proper indemnity.

LONDON, Sept 16.—The *Moniteur* has a tranquillising letter reviewing the relations of the Great Powers, and considers the situation calm and peaceful.

Registering voters for the forthcoming parliamentary elections which will commence about the 13th of November, is being prosecuted with great diligence throughout the British Isles. At many places women formally demanded that their names be placed on the list of voters, on the ground that they possessed the property qualifications prescribed by the Reform Bill. The legal aspect of the question has excited much public interest on the subject; over six thousand women had claimed the right to be registered in Manchester alone. Their demands were urged in an able speech before the registering officials by Miss Lydia Becker. After the argument on both sides, the claim was disallowed; similar proceedings took place in other towns. The question has finally been brought before the Judges of Westminster, and they have over-ruled the application that women be registered as voters, on account of an amendment to the Reform Bill which was passed in the House of Commons by Mr. Mill, which substitutes the words "men and persons" for "mao"—was rejected. By this action the House clearly vindicated the intent and purpose of the bill in this respect.

**The late Earthquake, &c.**  
LONDON, Sept 12.—The telegraphic report of the South American earthquake has caused much excitement in the commercial world, which was eager for full details. The Pall Mall Gazette has a leading article on the prospects of peace or war. It says that in every capital of Europe the belief that a great and immediate war is pending, grows daily. The best informed men say it will break out before the end of the year.

PARIS, Sept 12.—The *Patrie* thinks that the report that the Prussian army is about to be reduced is false.

BRUSSELS, Sept 12.—The International Congress of workmen adjourned yesterday. A resolution was adopted advising workmen to abstain from trades(?) during the war. An address was adopted urging the workmen to oppose war and refuse to countenance assassination, and use their efforts to induce others to do the same.

**California.**  
SAN FRANCISCO, Sept 16.—The Pacific mail steamer Montana arrived from Panama about 10 o'clock this morning.  
Sailed—Brig Tanner, Seabeck; schooner Bobalick, Hughes, Umpqua.

**Eastern States.**  
CHICAGO, Sept. 15.—The news from Maine says, the vote was the largest ever polled. Almost all the larger cities and towns show the Republican gains as compared with last year's vote. The total Republican vote was seventy-five thousand; Democratic vote, fifty three thousand.

ATLANTA, Ga., Sept. 15.—A bill was passed by the House yesterday excluding negroes from serving on juries. It is understood to-day that the House after a stormy debate declared negro members claiming only one eighth negro blood, to be ineligible by a unanimous vote; 69 Republicans refused to vote.

St. Louis, Sept 16.—Mike McCool has accepted the challenge from Heenan to fight for \$5000 with a promise that the fight shall come off within fifty miles of St. Louis, and that Frank Queen shall not be stakeholder.

**Editorial Correspondence No. 10.**  
WASHINGTON, D. C., July 27, 1868.  
For more than a week we have enjoyed ourselves in this "city of magnificent distances"—so called from the magnificent future which its founders glowingly predicted for it, the fulfilment of which seems still involved in the womb of years yet to come. Washington is far from being a handsome city. It is far behind New York, Boston, or Baltimore in architectural taste or design, and only the truly magnificent public buildings that dot its site save it from a tawdriness that would be absolutely painful. The war in one respect, was a benefit to Washington—its population having nearly doubled since that melancholy epoch. In 1861 the number of inhabitants was 60,000, now they number about 130,000; fully 30,000 of whom are colored. The city stands on the north shore of the Potomac river, a stream rendered historic by the stirring events of the late war. The main Capitol building, in which the Legislative business of the nation is transacted, is of white freestone, and is surmounted by a great dome, which rises nearly 200 feet above the roof, furnishing a landmark for many miles around. The height of the structure from the ground to the apex of the dome is 400 feet, and the view obtained from such a height, it may well be imagined, is picturesque and lovely in extreme. Of late years a north and south wing have been added to the main building, for the accommodation of the Legislative bodies. The Senate (or Upper House) holds its sittings in the north, and the Lower House in the south wing. The wings have ceilings of stained glass, above which gas jets are so arranged that at night soft, mellow rays of light are thrown into the hall below. Within the great dome and in various portions of the main hall are arranged statues of eminent deceased American statesmen, and several paintings of prominent living Republicans. Of the former, Mr Lincoln occupies the most prominent position, and is more frequently met with than any other, while the Father of his country—George Washington—is seen but twice, *solus*, once in plaster beneath one of the small domes, and once in oil at the right of Speaker Colfax's chair, in the House of Representatives; the left of the chair being occupied by a handsome full-length portrait of the French General Marquis de Lafayette, whose exertions in behalf of the revolted colonies are too well remembered by all readers of American history to need recapitulation here. The State, Treasury, War and Patent Office Buildings (and I believe one or two others) occupy sites in other parts of the city. They are built of white marble. Each covers a square of ground, is a handsome structure, and if located in a city remote from the Capitol building would be imposing. As it is, the immensity and magnificence of the Capitol overshadows and dwarfs all the rest.

The President's mansion is situated on Pennsylvania avenue, distant one mile from the Capitol. It is built of white freestone and is surrounded by handsome lawns, flower beds and shaded walks. Visitors are admitted almost daily, and shown through the famous east and blue rooms by polite attendants, who seem never to tire in pointing out and explaining the various objects of interest contained within the mansion. On Saturday evenings, during the fine weather, a regimental band performs choice selections of music in front of the mansion, and the occasion is improved by the fair portion of Washington society, in a promenade through the grounds. Last Saturday evening we joined the promenade. The scene presented was, I am assured, unusually brilliant. The Washington belles appeared attired in the latest styles to great advantage. The prevailing fashion for young ladies is short walking suits, mostly of white pique, out a la

**Polonaise.** Plain black grenadines with shawls to match, and light grenadines with lace shawls were also numerous—the grenadine dresses being invariably worn long. The Fanchon bonnet is the latest Washington novelty. The hats worn are so small as to be hardly worth the mention. During the progress of the promenade, President Johnson, with Secretaries McCullough and Welles, and the ladies of the Presidential household occupied the balcony. Mr Johnson is a better-looking man than his pictures led me to suppose. His toilet was scrupulously neat and his face free from lines of care or anxiety. He appears to have accepted the fierce assaults made upon him by Congress from time to time, as a matter of course, and as inseparable from the discharge of the duties of his office. Secretary McCullough resembles Mr Johnson closely, and Mr Welles has a red face and a full, long white beard.

The hotels of Washington are both dirty-looking and dirty. Neither in appearance nor fare, does the best of them approach the poorest San Francisco establishment. Willard's, the fashionable hotel, has a dingy, grimy look that would not be tolerated in a western city. The hotels mostly stand on Pennsylvania Avenue—the widest thoroughfare on the Continent. It ought, from its relation to the Capitol and the White House (it has one at either end) to have on its line the finest buildings in the city; but it has just the reverse—being fringed on either side with mean, old, tumbledown structures, and ending at the Capitol in a rough-board stable! A line of street cars runs through the centre of the Avenue.

Speaking of street cars, I am reminded of the characteristic politeness of Washington passengers as compared with that of Brooklyn and New York. In the former cities, a lady enters a car filled with male bipeds, and in nine cases out of ten I will lay a wager not a seat will be offered her; she must remain standing and striving to maintain an equilibrium by grasping a hand-strap suspended from the ceiling of the car, until a vacant seat be provided by the alighting of the first gentleman who arrives at the end of his journey. Here in Washington, however, let a female enter a crowded car and instantly half-a-dozen gentlemen rise and tender the fair one a choice of seats a sweet smile and a pleasant "thank you sir," being deemed sufficient compensation for the gracious act of self-denial.

To be continued.

**Dr Gibbon's Dispensary,**  
**616 KEARNEY STREET, NEAR**  
Columbus, San Francisco. Established in  
1854, for the treatment of Sexual and Seminal Diseases,  
such as Gonorrhoea, Gleet, Stricture, Syphilis, in all its  
forms, Seminal Weakness, Impotency, etc. Skin Dis-  
eases (of years standing) and Ulcerated Legs success-  
fully treated.  
Dr. Gibbon has the pleasure of announcing that he has  
returned to this State, after an absence of one year  
during which time he visited all the principal Hospitals  
of Europe, among them those of Dublin, London and  
Paris. The following celebrated Hospitals of London are  
among those visited by the Doctor: Guy's, St. George's,  
St. Bartholomew's, St. Luke's, Old Street, St. Mary's, Can-  
terbury, University, Westminster, Westminster, Broad  
Sanctuary, Charing Cross, Agor street, Strand, London;  
Whitechapel Road; Royal Free, Gray's Inn Road; King's  
College, Portugal street.  
Dr. Gibbon has returned neither time nor money in seek-  
ing out new remedies, and has returned with increased  
facilities for the alleviation of human suffering.

**Horrible Diseases.**  
How many thousands of persons, both male and female  
are there who are suffering out a miserable existence  
from the effects of secret indulgence, in an almost unlim-  
ited extent, producing, with unerring certainty, the follow-  
ing train of morbid symptoms, unless combated by scientific  
medical measures, viz.: Sallow countenance, dark spots  
under the eyes, pain in the head, ringing in the ears,  
noise like the rattling of leaves and rattling of chariot,  
uneasiness about the loins, weakness of the limbs, con-  
fused vision, blun of intellect, loss of confidence, diffi-  
culty in approaching strangers, a dislike to form new ac-  
quaintances, a disposition to shun society, loss of memory,  
hectic flushes; pimples and various eruptions about the  
face, furrowed forehead, loss of breath, cough, consump-  
tion, night sweats, monomania and frequent insanity. If not  
soon obtained, should apply immediately, either in per-  
son or by letter, and have a cure effected by his new and  
scientific mode of treating this disease, which never fails  
of effecting a quick and radical cure. Dr. G. will give One  
Hundred Dollars to any person who will prove satisfac-  
torily to him that he was cured of this complaint by  
either of these means.

**Married Men.**  
Of those who contemplate marriage, who are suffering  
under any of these fearful maladies, should not forget the  
sacred responsibility resting upon them nor delay to  
obtain immediate relief.  
Dr. Gibbon is responsible, and will give to each patient  
a written instrument, binding himself to "effect a radical  
and permanent cure, or make no charge."  
**Cured at Home.**  
Persons at a distance may be CURED AT HOME, by  
addressing a letter to Dr. Gibbon stating case, symptoms,  
length of time the disease has continued, and having  
medicine promptly forwarded, free from damage and  
curiosity, to any part of the country, with full and plain  
directions for use. By enclosing \$15 in currency or \$10

**VICTORIA PERFUMERY**  
YLANGYLANG.  
ROI DES PARFUMS  
RIGAUD AND CO. PARIS

45 Rue de Richelieu.  
**THE KING OF PERFUMES.**

THE VICTORIA PERFUMERY is now adopted by  
the ELITE of the aristocracy and fashionable world  
on account of the superior articles for the toilet  
each of which has been made a speciality.

The new perfumes prepared with the ESSENCE  
of YLANGYLANG extracted by distillation from  
the YLANGYLANG and imported from  
the Philippine Islands are beyond comparison for  
their delicacy and sweetness. We therefore re-  
commend the BEAU MONDRE to try as a handker-  
chief perfume.

THE EXTRACT OF YLANGYLANG  
AND  
THE MANILLA BOUQUET

Besides these, which are the exclusive property  
of their house, Messrs Rignaud and Co prepare in  
a most approved and superior manner all the fash-  
ionable scents, amongst which we may mention the

Ess Bouquet Wood Violet Mignonette

Field Flowers Rondeletia Moss-Rose

**RIGAUD'S TOLUTINE**

Is an admirable toilet-water, the true talisman  
of beauty, preserving the freshness of the skin  
and the fairness of the complexion. It is the per-  
fection of science adapted to the toilet, and is in-  
contestably superior to Eau de Cologne, or the  
most esteemed of vinegars and the Florida  
water.

**THE MIRANDA HAIR-OIL AND POMATUM.**

Is a remarkable preparation which may be  
called a real treasure for the hair. It is com-  
posed of tonic and fortifying compound, and it  
beautifies and preserves the hair at the same time  
as it imparts to it a most refreshing perfume.

**MIRANDA SOAP,**  
COMPOSED MAINLY OF THE MILK OF THE  
LETUCE AND THE LILY.

A simple comparison of this soap with others  
sold by the perfumery trade, suffices to prove its  
superiority. It gives the skin a deigh-  
tful surface, it lathers abundantly, forming a real  
milk-bath, and is all that can be desired as to  
perfume.

**DENTORINE**  
AND TOOTH-PASTE.

THE DENTORINE is a pleasant elixir for the  
teeth; it perfumes and refreshes the mouth,  
strengthens the gums and prevents decay.

THE TOOTH-PASTE has made quite a revolution  
in this class of toilet necessary, and has done away  
with powders and opiates that are more or less  
acid and dangerous. A brush passed over it pro-  
duces a soft and unctuous mucilage that gives the  
teeth a brilliant whiteness.

**THE ROSE POWER**

Preserves the skin from the roughness of the  
wind and the cold, gives it a soft freshness, and  
prevents red spots and freckles. It is far superior  
to rice and starch powders, and it is deliciously  
perfumed.

**French Medicines,**  
PREPARED BY  
**GRIMAULT & CO.**  
Chemists to H.I.P. Prince Napoleon,  
**PARIS.**

These different medicines represent the most recent  
medical discoveries, founded on the principles of Chem-  
istry and Therapeutics. They must not be confounded  
with secret or quack medicines, as their names suffi-  
ciently indicate their composition; a circumstance which  
has caused them to be appreciated and prescribed by the  
Faculty in the whole world. They widely differ from  
those numerous medicines advertised in the public  
papers as able to cure every possible disease, as they re-  
spond only to but a very few complaints. The most  
stringent laws exist in France with regard to the sale of  
medical preparations, and only those which have under-  
gone an examination by the Academy of Medicine  
and have been proved efficacious, either in the hospitals  
or in the practice of the first medical men, are authorised  
by the Government. This fact must be a guarantee for  
the excellence of Messrs. Grimault & Co.'s Medi-  
cines.

**NO MORE COD LIVER OIL!**

**Grimault's Syrup of Iodized**  
**Horse Radish.**

This medicine has been administered with the utmost  
success in the Hospitals of Paris. It is a perfect substi-  
tute for Cod Liver Oil, and has been found most benefi-  
cial in Diseases of the Chest, Scrofula, Lymphatic  
Disorders, Green Stickness, Muscular Atony,  
and Loss of Appetite. It regenerates the constitu-  
tion in purifying the blood, it being the most powerful  
depurgative known. It has also been applied with happy  
results in Diseases of the Skin. Further, it will be  
found to be of great benefit to young children subject to  
Humors and Obstructions of the Glands.

**CONSUMPTION CURED!**

**Grimault's Syrup of Hypo-**  
**phosphite of Lime.**

This new medicine is considered to be a sovereign  
remedy in case of Phthisis and other Diseases of the  
Lungs. It promptly removes the most serious symp-  
toms. The cough is relieved, night perspirations cease  
and the patient is rapidly restored to health.  
N.B.—Be sure to see that the signature of Grimault  
& Co. is affixed to the bottle, as this Syrup is liable to  
imitations.

**NO MORE DIFFICULT OR PAINFUL**  
**DIGESTION!**

**DR. BURINDUBUISSON'S**  
(Laureate of the Paris Imperial Academy of Medicine)  
**DIGESTIVE LOZENGES**

This delicious preparation is always prescribed by the  
most reputed medical men in France in cases of derange-  
ments of the digestive organs, such as  
Gastritis,  
Gastralgia,  
Long and Laborious Digestion,  
Wind in the Stomach and Bowels,  
Rickets,  
Jaundice, and  
Complaints of the Liver & Lungs

**NERVOUS HEADACHE,**  
**NEURALGIA,**  
**DIARRHÆA, DYSENTERY,**  
**INSTANTLY CURED BY**  
**Grimault's Guarana.**

This vegetable substance, which grows in the Brazil  
has been employed since time immemorial to cure  
Inflammation of the Bowels. It has proved to be  
of the greatest service in cases of  
Cholera, as it is a preventive and a cure in cases of  
Diarrhœa.

**NO MORE COPAIBA OR CUBEBS!**

**Grimault's Capsules and**  
**Liquid Extract of Matico**  
**Vegetalis.**

Where all other preparations have failed these prepara-  
tions will always effect a cure. These insure rapid and  
extraordinary cure of severe recent and chronic cases of  
private diseases. They are used in the hospitals of Paris,  
by the celebrated Dr. Ricard, and found greatly superior  
to all hitherto known mineral remedies and Copal and  
Cubebs. The Injection is used in recent, and capsules  
more chronic cases.

**COAL TAR**

[Extract from the Lancet, Dec. 2, 1866  
Liq. Carbonis Detergens. We are very sceptical of the  
value of a few remedies, and it was in a spirit of scepticism  
that we tried the liq. carbonis detergens. It is represented  
to be a concentrated alcoholic solution of the con-  
stituents of coal tar, and to contain all the active ingre-  
dients of the tar, to wit, benzene, naphthalin, and phenic  
acid. The addition of water, with agitation, makes a  
durable emulsion, in which the tar remains in a state of  
fine suspension, almost equivalent to a solution. Our ther-  
apeutical experience of the preparation is very satisfactory  
indeed. In our hands it has been a most effective agent  
in the case of various skin diseases, especially of the  
chronic eczematous class, and of cases of psoriasis  
which had resisted all other kinds of treatment speedily  
got well under the application of the liq. carbonis deter-  
gens. We esteem it a very valuable addition to our list  
of skin remedies, and worthy of a very extended trial by  
the profession. In the above classes of disease, and in  
various others, such as acid ulcers, etc., the preparation is  
put into the form of soap.

**PURE COAL TAR SOAP**
